

AKW Apparate + Verfahren GmbH, a medium-sized, owner-managed plant engineering company based in the central Upper Palatinate / Bavaria, has been an internationally renowned specialist in the fields of process engineering, equipment and plant engineering with its technology for over five decades. It supplies its customers worldwide with sophisticated components and individual processing units up to turnkey plants, from basic engineering to commissioning.

Due to the growth of the international markets, we are looking for our headquarters in **Hirschau** for a

Commissioning Engineer (m/f/d) for Processing Plants and Equipment

Your main tasks:

- Commissioning, mounting supervision and service of supplied equipment and plants in Germany and abroad, depending on scope and complexity, independently and/or in cooperation with other employees of the technical laboratory
- Execution of test orders in the technical laboratory or at the customer's site including test preparation and preparation of test reports

Your profile:

- Completed apprenticeship in the technical or manual field (e.g. electronics technician, mechanic technician, mechatronic technician, electronics technician for automation technology, metal worker) or completed apprenticeship in comparable technical areas
- Acceptable English skills, in words and in writing
- Willingness to travel in Germany and abroad
- Reliable handling of MS Office programs
- Ability to work independently and on your own responsibility, as well as a structured and careful approach to work
- High quality awareness, ability to communicate and work in a team
- Driving licence class B needed

In addition to a punctual salary payment, you will receive a holiday bonus and Christmas bonus as well as an allowance for the company pension scheme.

We look forward to receiving your application (by post or e-mail) if you are interested in an independent, challenging and varied position in an internationally active medium-sized company.
